**STUDENT ASSIGNMENTS A.Y. 2023-24**

**F.Y.B.Sc. CS**

**DBMS Assignment**  
Computer Science - 15 Feb 2024 (15 Feb)  
900 points

Write SQL queries for the given questions. Once completed, scan your answers and merge them into a single PDF file. Submit the PDF file in the classroom before 15 Feb.

- Create a table named 'Students' with appropriate character encoding.
- Write the 'INSERT' statement to add a table named 'Students' with the following attributes (student's primary key) Name, Age, and Sex.
- Insert three records into the 'Students' table with sample data.
- Update the City of the student with ID number 100 to 'P.'.
- Delete the record of the student with the lowest ID.
- Fetch the name of all students aged 20.
- Retrieve the name and age of the student with the highest ID.
- Retrieve the average City of all students.
- Calculate the total number of students in the 'Students' table.
- Calculate the maximum and minimum age among the students.
- Calculate the sum of ages for all students.
- Write an SQL query to retrieve the length of the name for each student in the 'Students' table.
- Generate the Name and Age columns for all students and display the result.
- Concatenate all student names to a single string.
- Calculate the average of each student's age.
- Round the City of each student to the nearest integer.
- Find the names of students whose name's length is 10.
- Retrieve the names of students whose names start with 'J' and end with 't'.
- Enter the top three characters of each student's name.
- Extract the substring of the name starting from the 2nd character and ending at the 10th character.

**DSA Unit 3 Assignment questions**  
Computer Science - 3 Nov 2023 (Edited 14:36)

- Explain general configuration of microprogrammed control unit with diagram.
- Define microprogram. Write advantage of using microprogram control unit.
- What are the capabilities of address sequencing in control memory?
- Explain concept of subroutines.
- Distinguish between tightly coupled and loosely coupled systems.
- Explain time shared common bus scheme of interconnection network.
- Explain multipoint memory scheme of interconnection network.
- Explain crossbar switch scheme of interconnection network.
- Explain multistage switching network scheme of interconnection network.
- Explain hypercube system scheme of interconnection network.
- Compare SIMD and MIMD systems.
- Define cluster system and explain different types of it.
- Discuss benefits of using cluster systems.
- Short note on NUMA computers.
- Define Array processors. Write advantages of using Array processors.
- State difference between Multiprocessors and Multicomputers.

g

**SHETH L.U.J. & SIR M.V. COLLEGE OF ARTS, SCIENCE & COMMERCE**  
**DR. S. RADHAKRISHNAN MARG, ANDHERI (E), MUMBAI - 400 069**

The screenshot shows a Google Classroom interface for the class 'F.Y.B.Sc. SEM 1 and 2'. The page title is 'DSA unit 2 Assignment questions', dated 18 Oct 2023. The assignment contains 16 questions:

- 1) Short note on register transfer language
- 2) Explain different phases of instruction cycle
- 3) Discuss input/output configuration in digital computer with diagram
- 4) Explain bus organization for seven CPU registers with diagram
- 5) What is control word? Explain with example
- 6) Explain most common fields found in instruction format
- 7) Discuss different types of CPU organization in computer
- 8) Define Addressing mode. What is the purpose of using addressing modes?
- 9) Define any five different Addressing modes
- 10) Explain different categories of computer instruction with example
- 11) Write characteristics of RISC processor
- 12) Write characteristics of CISC processor
- 13) Explain memory hierarchy in computer system
- 14) Distinguish between auxiliary memory and cache memory
- 15) Short note on Magnetic Disk
- 16) Distinguish between RAM and ROM

Below the questions is a 'Class comments' section with an 'Add class comment...' input field.

The screenshot shows a Google Classroom interface for the class 'F.Y.B.Sc. SEM 1 and 2'. The page title is 'DSA unit 1 assignment questions', dated 18 Oct 2023. The assignment contains 18 questions:

- 1) Explain working of half adder with the help of circuit diagram and truth table.
- 2) Distinguish between Computer Architecture and Computer Organization.
- 3) Short note on Direct Memory Access.
- 4) State and prove associative law.
- 5) Explain working of half subtractor with the help of circuit diagram and truth table.
- 6) State and prove distributive law.
- 7) Draw the logical diagram for the following Boolean equation using basic gates.  $X = BC + AB + ABC$
- 8) Prove following equations using Boolean rules.  $[(A+B)(B+C)], B + AB$
- 9) Prove  $AB + C = AC + BC$  equations using Boolean rules.
- 10) Draw the logical diagram for the following Boolean equation using basic gates.  $X = (A+B)(B+C)$
- 11) Prove following equations using Boolean rules.  $A + AD = A + B$
- 12) Simplify the following Boolean function using K-map method.  $f(A,B,C) = \sum(0,2,4,5,6)$
- 13) Simplify the following Boolean function using K-map method.  $f(A,B,C) = \sum(3,4,6,7)$
- 14) Discuss the working of S-R flip flop.
- 15) What is the role of shift register? Explain with 4 bit Shift Register.
- 16) What is Multiplexer? Design 4:1 Multiplexer.
- 17) What is Demultiplexer? Design 1:4 Demultiplexer.
- 18) Short note on synchronous counter.

Below the questions is a 'Class comments' section with an 'Add class comment...' input field.

The screenshot shows a Google Classroom interface for a class named "Project Management" (TYCS AY 2023-24). The left sidebar lists various courses, with "Project Management" selected. The main content area shows an assignment titled "Assignment 1" posted by "kalsiraj ST" on August 25, 2023. The assignment description asks for two examples of projects representing different organizational structures. The current status shows 31 students have started and 9 have completed the assignment. There is an "Add class comment" field at the bottom.

The screenshot shows the details of a "Cloud Assignment" in the "T.Y.B.Sc. SEM 5 and 6" class. The assignment is worth 100 points and was edited on February 15. It contains five questions related to virtualization and cloud deployment models. The deadline is set for today at 09:12 AM. The interface includes "Instructions" and "Student work" tabs, and an "Add class comment" field.

**Cloud Assignment**  
Computer Science • 15 Feb (Edited 15 Feb)  
100 points

1. What is hypervisor? Explain the different types of hypervisors with a neat diagram.
2. Explain the pros and cons of virtualization.
3. Explain the cloud deployment models, in detail.
4. What is virtualization, and how does it differ from traditional computing environments?
5. Discuss the benefits of virtualization in terms of resource utilization, scalability, and disaster recovery.

Attempt all the questions and submit it in this classroom by today at 09:12 AM.

The screenshot shows a Google Classroom interface for a class titled "T.Y.B.Sc. SEM 5 and 6 TYCS AY 2023-24". The left sidebar lists various subjects, with "T.Y.B.Sc. SEM 5 and 6 TYCS AY 2023-24" selected. The main content area displays "Ethical Hacking Assignment 2" under the subject "Computer Science - 6 Feb". Below the title, there is a document icon labeled "Assignment 2.docx Word". A "Class comments" section is visible at the bottom with a text input field and a "C" icon.

The screenshot shows a Google Classroom interface for the same class. The left sidebar is identical to the first screenshot. The main content area displays "LSA Assignment No. 1" under the subject "Computer Science - 21 Aug 2023". It specifies "100 points" and a due date of "Due 21 Aug 2023, 11:15". The assignment instructions state: "Write the following questions and answers in your notebook, scan the pages (in the correct serial order), create a PDF file, and upload the PDF file to the classroom today, August 21, 2023, till 11:10 AM." Below this, the questions are listed: "Answer the following questions: (Attempt All)" followed by four numbered questions about Linux file systems, booting process, ARP protocol, and user management commands. A "Class comments" section is at the bottom with a text input field and a "C" icon.
