DR. S. RADHAKRISHNAN MARG, ANDHERI (E), MUMBAI – 400 069

Academic Year 2023-2024

3.3.1 - Extension activities are carried out in the neighbourhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

The Intercollegiate Fest "**VIBES: Wings of Joy**" was an event of creativity, sustainability, and innovation. This year's theme, "**Electro Warriors**," focused on environmental awareness. Our team designed a unique photobooth intake with the theme, featuring models like a robot and creative earrings made from waste materials. It added a fun, eco-friendly touch to the event and caught everyone's attention.

A major highlight of the fest was the "**E-Waste Art Expo**", where students turned old electronic waste into stunning creations. Participants had a set time to design and display their work, and the results were incredible. Some standout entries included a beautiful peacock, a functional mini robot, a detailed mini village, and many other impressive designs. The expo brought together multiple participants from different colleges, encouraging teamwork and idea-sharing among students.

To encourage proper e-waste management, our team also set up an e-bin to collect electronic waste during the fest. The waste collected was either recycled or repurposed, reducing environmental harm and promoting sustainability. The "Electro Warriors" theme inspired everyone to think about how we can reuse and recycle electronic waste in creative ways. The event inspired people to be creative while protecting the environment.
